Michael Peterson, State Demographic Center

March 21, 2014

The State Demographer's Office has a new face

- In March 2012, Susan Brower became the State Demographer, following Tom Gillaspy's retirement after 32 years in this role

What is the role of the MN State Demographic Center?

- Serve as a liaison to the Census Bureau and assist with the decennial census counts
- Create MN population estimates and projections
- Analyze, interpret and distribute data from the state, U.S. Census Bureau and other sources
- Offer data and technical assistance to legislators, all levels of government, organizations and citizens across the state
- Monitor trends and help MN to make data-informed decisions

Major trends for Minnesota

plus questions & insights from you

Aging

+ Number of older adults will increase substantially over the next 20 years

Change in older adults, age 65+ (Thousands)

+ Number of older adults will increase substantially over the next 20 years

Change in older adults, age 65+ (Thousands)

+ Why are changes so marked now?

Population by age and sex Minnesota, 2010

For the first time in MN history: More 65+ than school-age by 2020

Source: U.S. Census Bureau & Minnesota State Demographic Center

MN's labor force growth is projected to slow

Average Annual Labor Force Growth, 1980-2035

Source: MN State Demographic Center projections

Diversity & Immigration

50 years of growing diversity in our region, state, nation

Percent Of Color, 1960-2010

MN's Populations of Color are fastest growing

Population change by race

Minnesota, 2010-2012

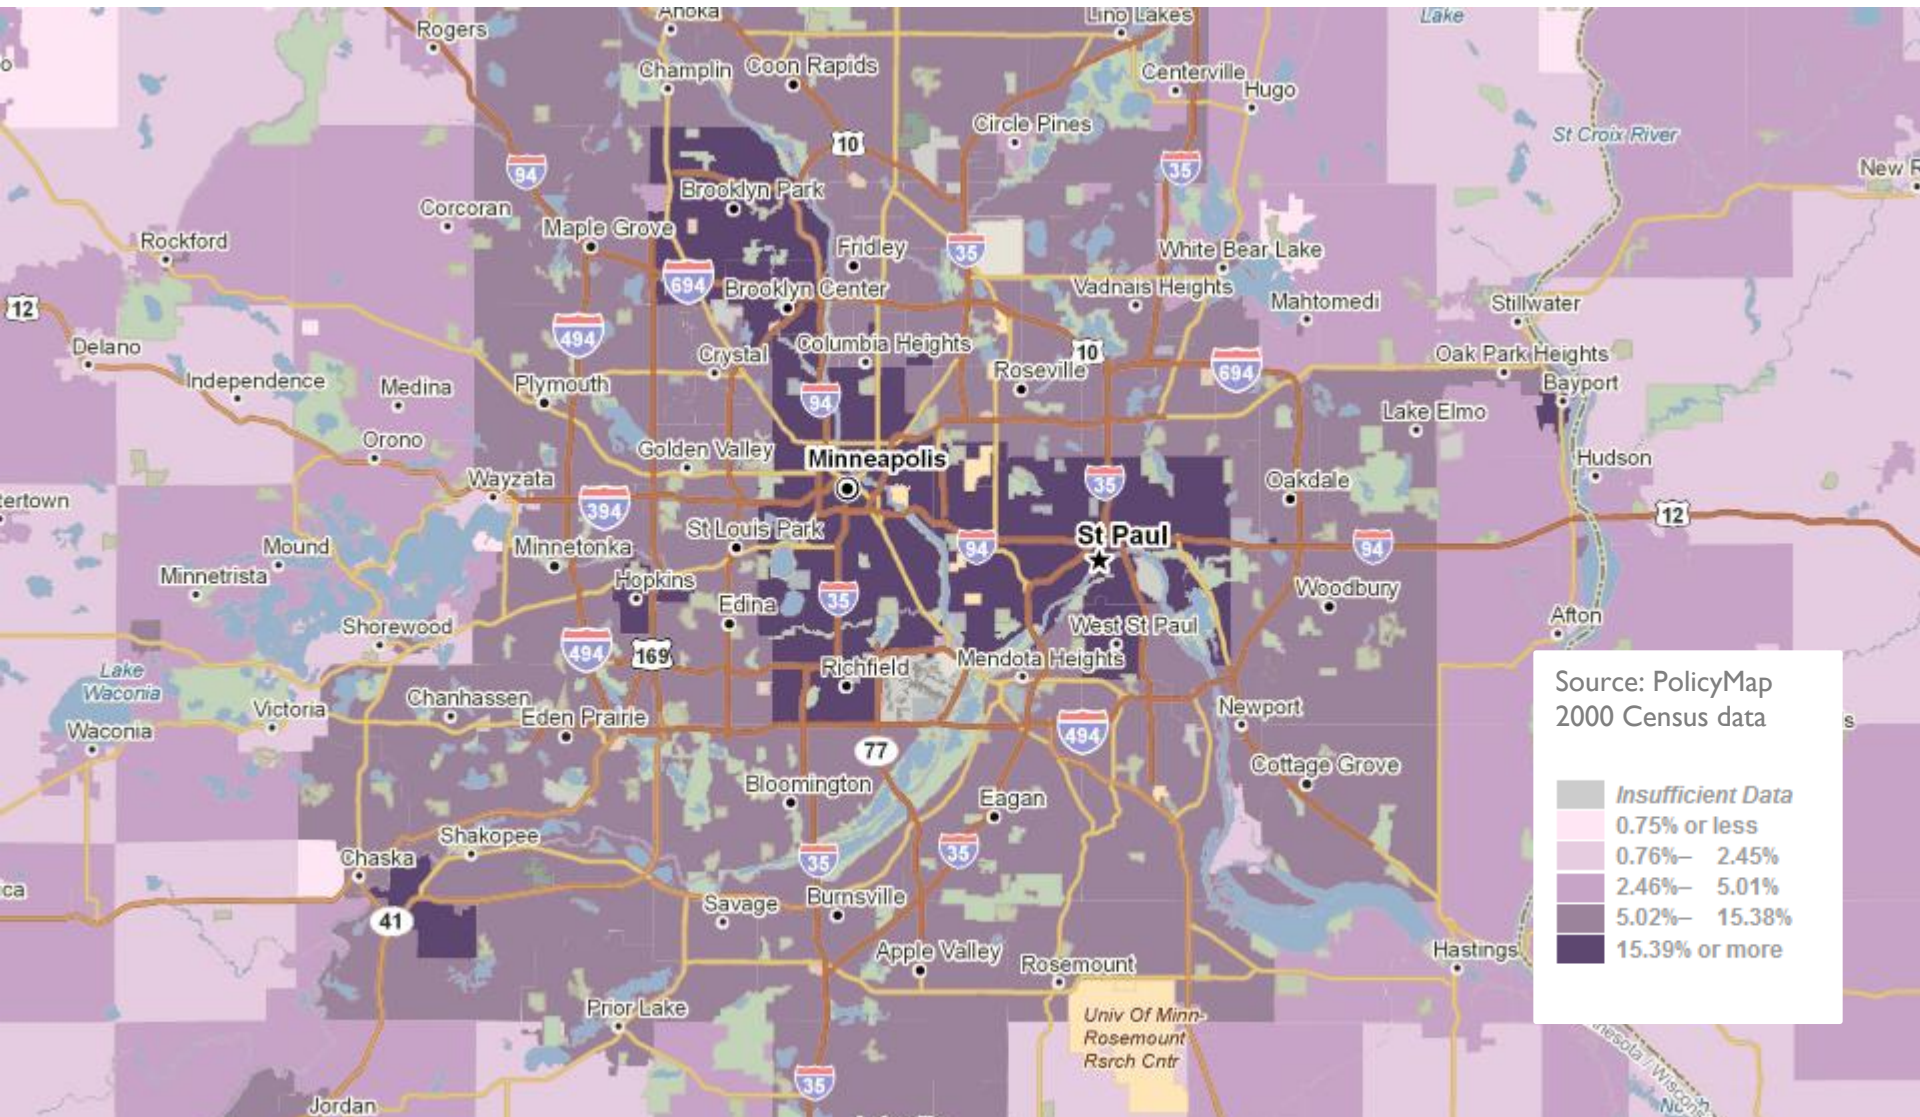

MN: Largest growth among Asian, Black and Hispanic groups by 2030

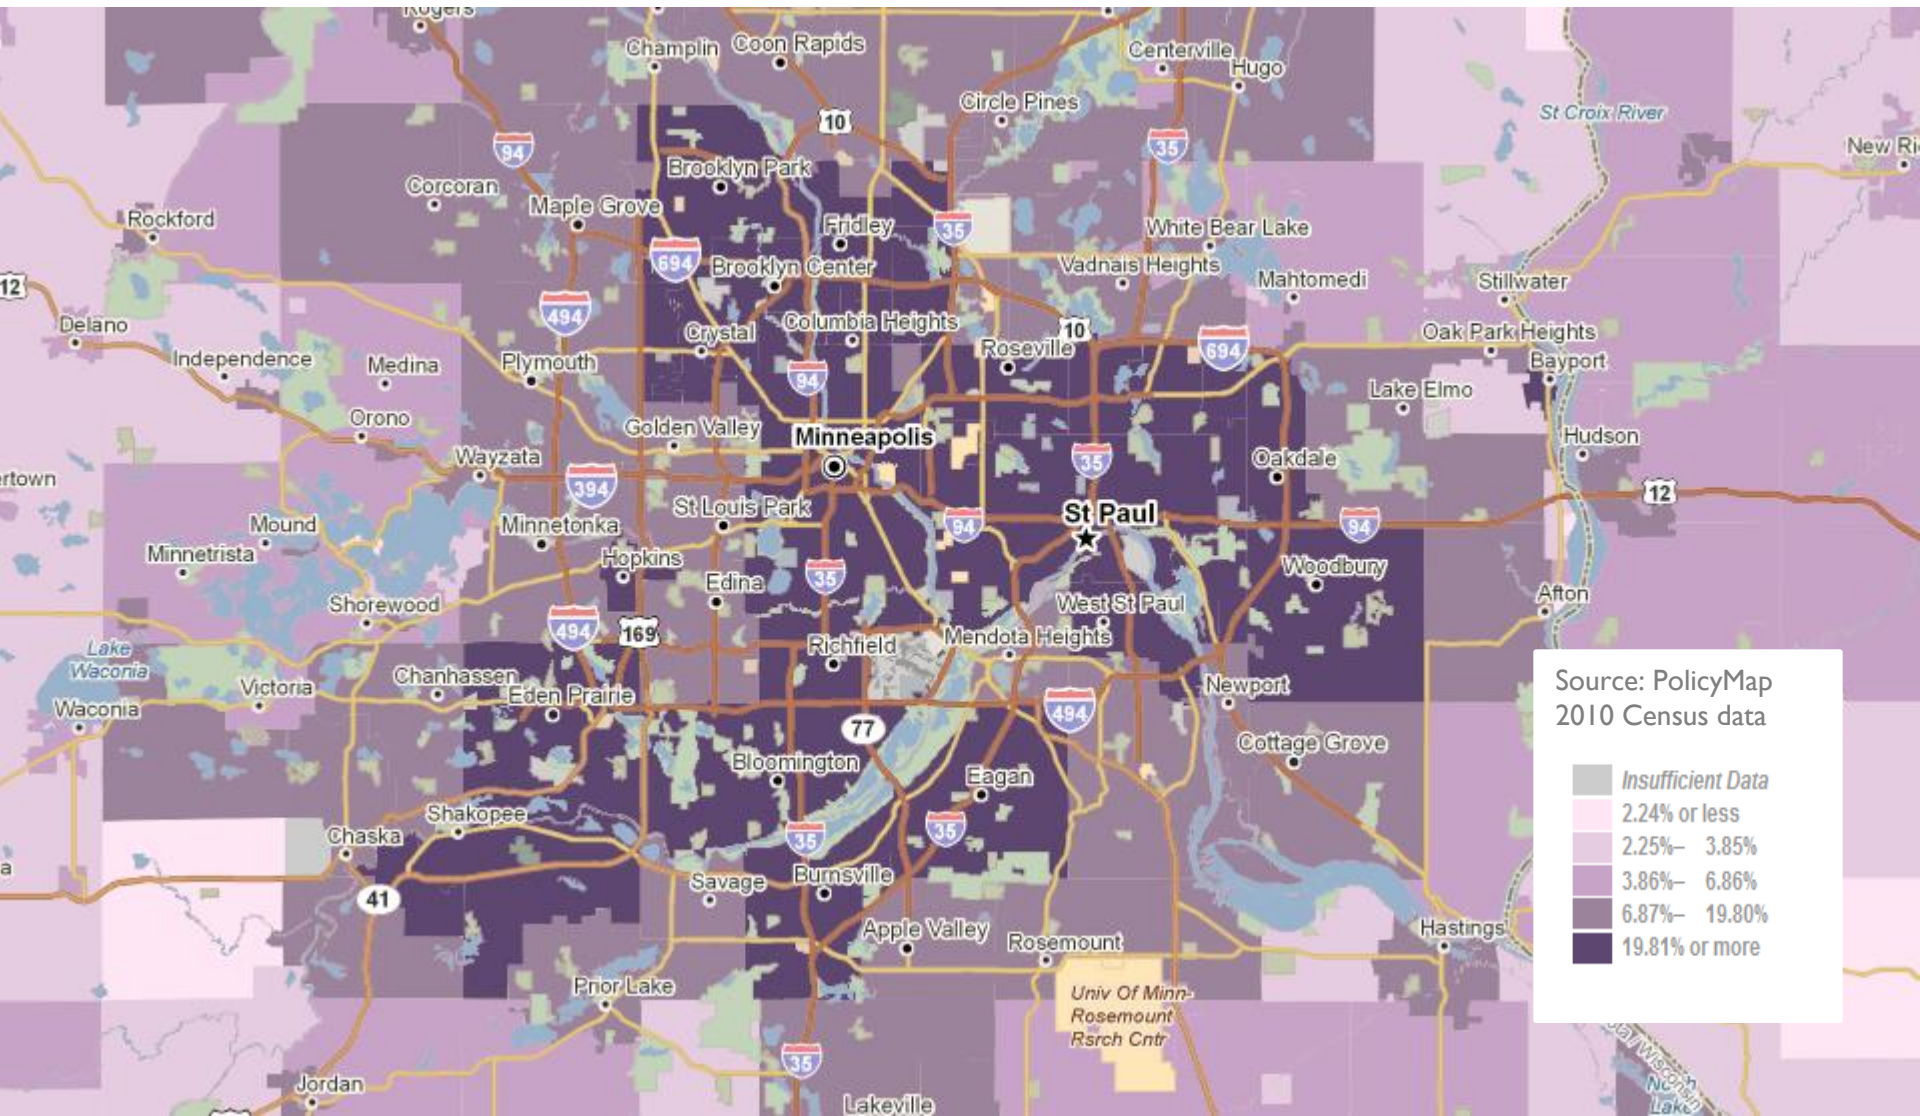

Source: Minnesota State Demographic Center projections.

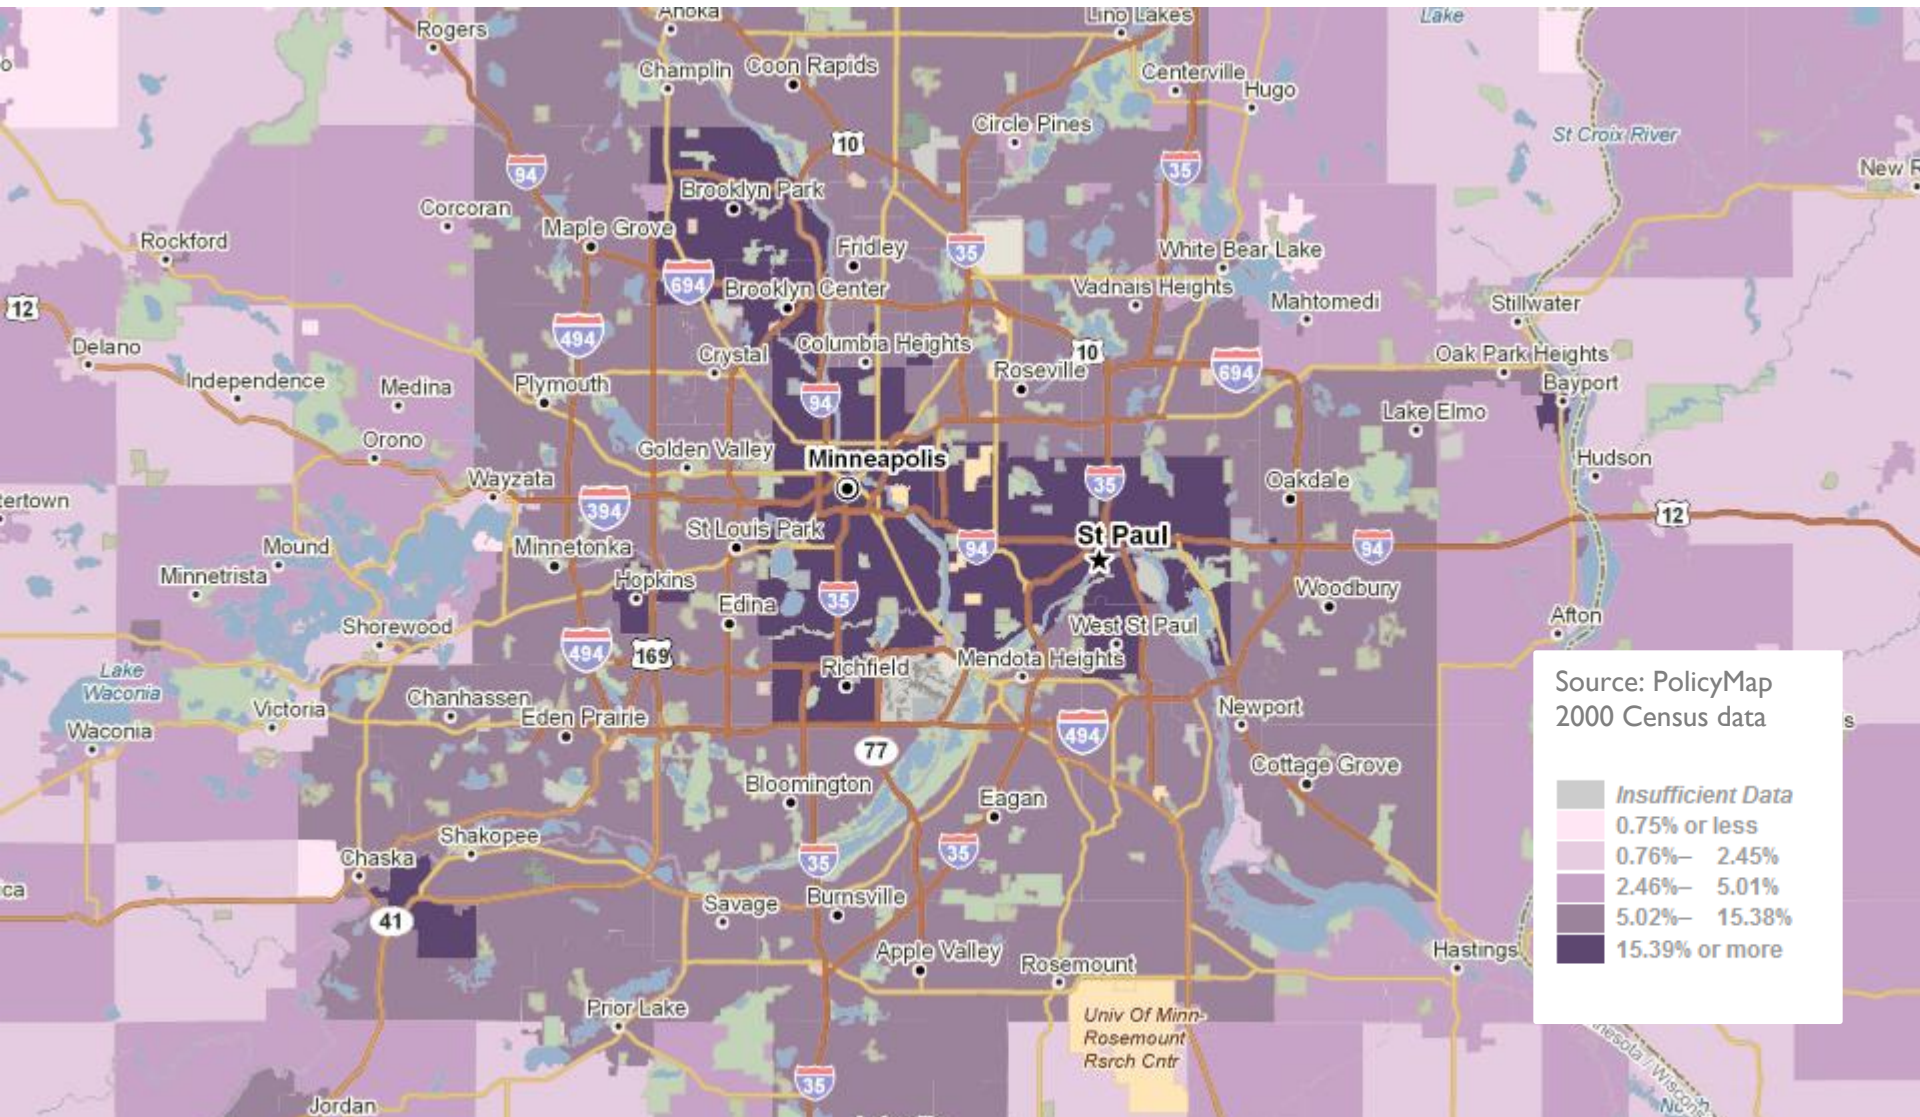

2000: Few cities had populations of color > 15%

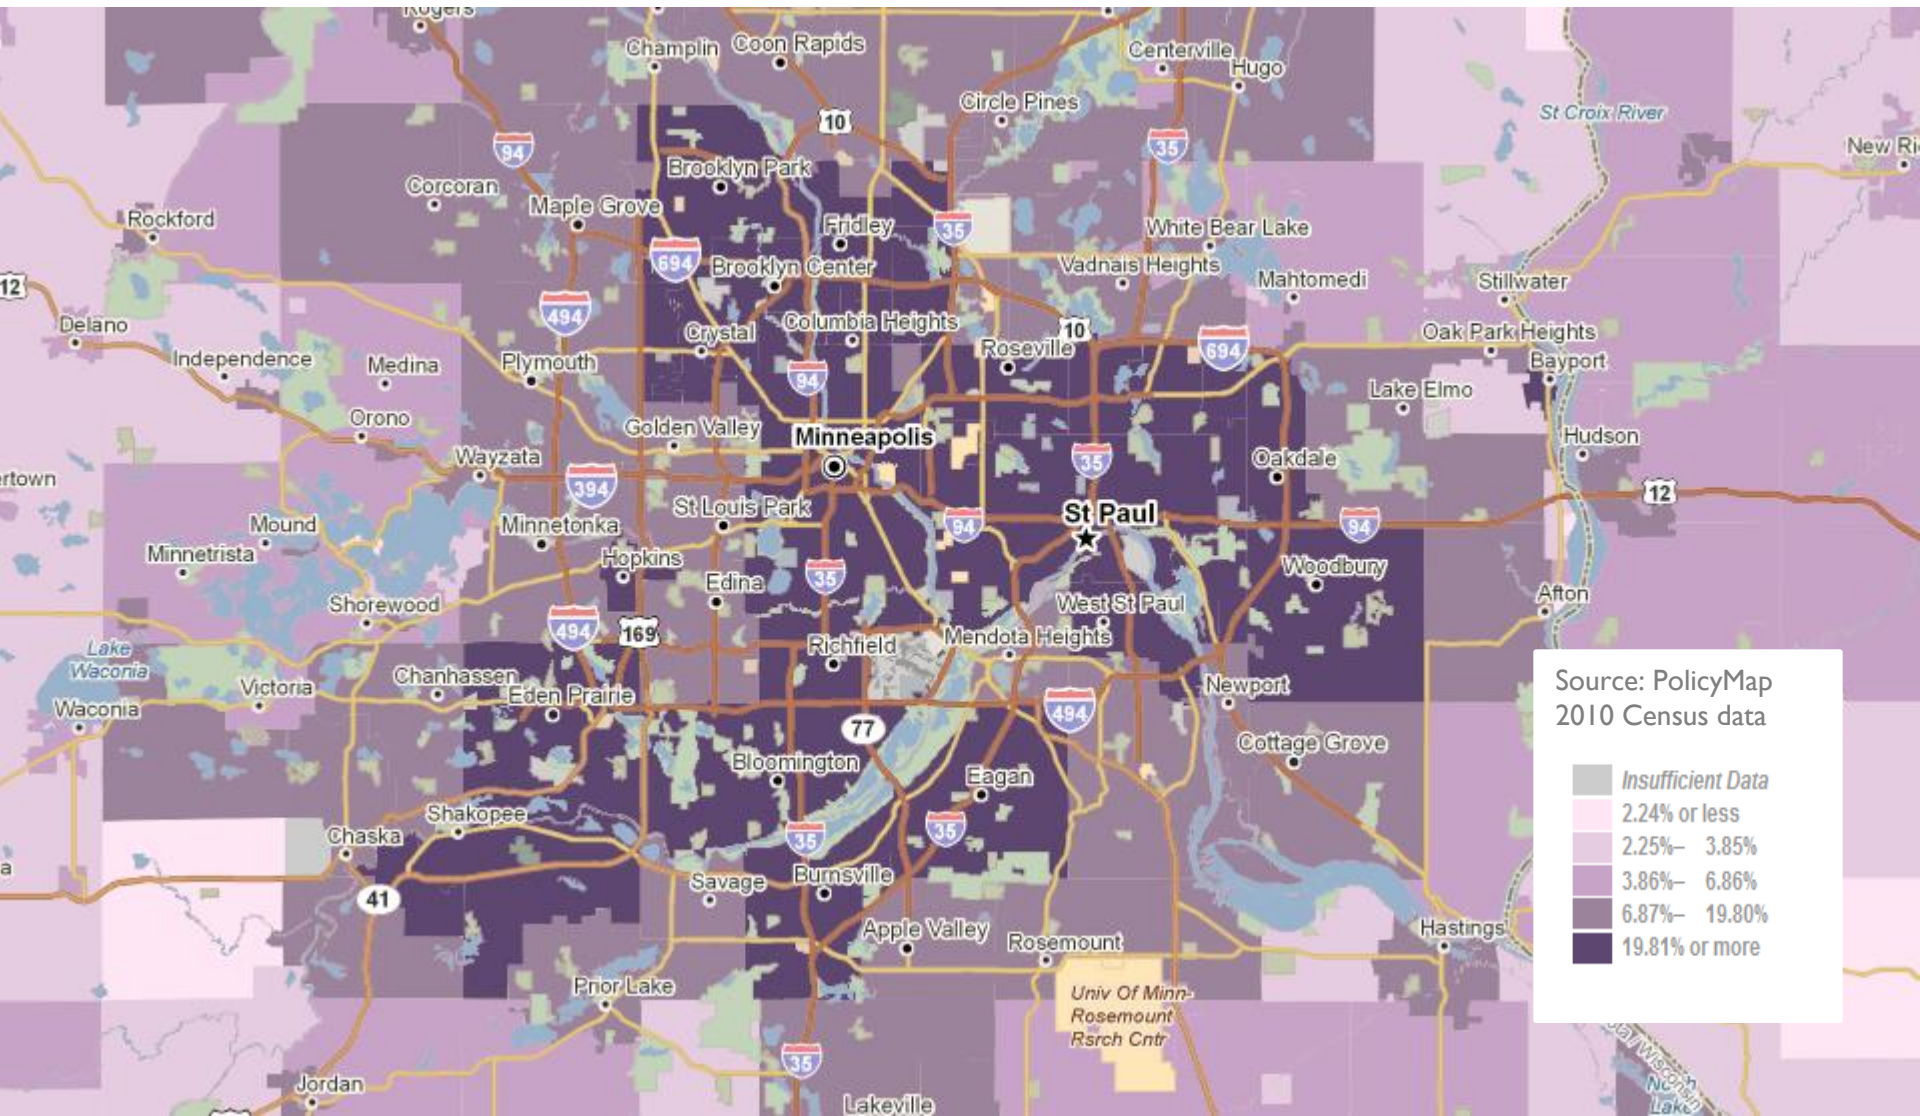

2010: Many cities had populations of color > 20%

2000: Few cities had populations of color > 15%

2010: Many cities had populations of color > 20%

+ Minnesota's population by age groups, 2012

QUIZ QUESTION: Immigration

True or False: Immigrants are more common in MN today than they were in 1920.

A. True

B. False

Immigration is not a new phenomenon for MN

Source: U.S. Census Bureau

1 in 10 Twin Cities residents is foreign-born

Percent foreign born

Twin Cities 7-county region, MN, and U.S., 1970-2012

Compiled by
Compass

Our foreign-born population is becoming increasingly diverse

MN foreign-born population: Largest groups by country of birth, 2010-2012

* Hmong represented

Source: mncompass.org

Percent of MN young people who are “children of immigrants”

Under age 20, it's 1 in 6

Under age 5, it's 1 in 5

“Children of immigrants” are foreign-born themselves, or have one or two foreign-born parents

+ Second generations of newer immigrant groups are growing

+ Not from around here? Good. We need you.

Migration trends

- Without positive net migration, MN's total population would begin shrinking by 2043, due to more deaths than births

Migration of typical working-age people:

- Right now, Minnesota also loses about 12,000 residents ages 16 to 64 per year to domestic migration (net).
- It is only because of additional flows of about 20,000 international migrants that Minnesota experiences gains about 8,000 working-age people annually (net).

Gaps in proportions of adults (16-64) working, 2010-2012 (with US rank)

- White - Asian = 10.7% (48th)
- White - Southeast Asian* = 15.9% (49th)
- White - Black = 10.7% (43rd)
- White - Foreign-born Black 12.5% (45th)
- White - American Indian 26.0% (49th)

* “Southeast Asian” = those indicating ancestry as Burmese, Cambodian, Filipino, Hmong, Indonesian, Laotian, Malaysian, Thai, Taiwanese, or Vietnamese.

White students outpacing students of color in reading in MN

Welcome! The Minnesota State Demographic Center, part of the Department of Administration, is the main provider of demographic data and analysis for the state. The Center provides yearly population estimates and long-term projections each decade, and analyzes and distributes data from the federal government and other sources to monitor key trends. The State Demographic Center serves as a liaison to the U.S. Census Bureau and as a resource to all Minnesotans to find the demographic data they need to make smart decisions.

RECENT DOCUMENTS

- [New Census data shows better income, poverty trends and more young adults with health insurance in Minnesota](#): American Community Survey data shows Minnesota continues to outperform the nation, September 20, 2012. (Media release)
- [Annual estimates of city and township population, households, and persons per household, 2011](#): Prepared by the MN State Demographic Center (Dataset).
- [Annual estimates of county population, households, and persons per household, 2011](#): Prepared by the MN State Demographic Center (Dataset).
- [First-ever "MN Data Opener" contest concludes](#): Amanda Rohrer, Jason Voioovich, and Patrick Martin named as winners

CENSUS 2010

The primary source of demographic data for Minnesota is the U.S. Census Bureau. We provide tools and summary reports for Minnesota data. See our [Census 2010 page](#) for more detailed information.
